CBD College is seeking accreditation of a new physical therapist assistant education program from CAPTE. The program will submit an Application for Candidacy, which is the formal application required in the pre-accreditation stage. Submission of this document does not assure that the program will be granted Candidacy for Accreditation status. Achievement of Candidacy for Accreditation status is required prior to implementation of the [professional/technical] phase of the program; therefore, no students may be enrolled in [professional/technical] courses until Candidacy for Accreditation status has been achieved. Further, though achievement of Candidacy for Accreditation status signifies satisfactory progress toward accreditation, it does not assure that the program will be granted accreditation.
