- Financial Aid for qualified students

OUR PROGRAMS

- Associate Degree in Diagnostic Medical Sonography • Surgical Technology
- Pharmacy Technician • Physical Therapist Assistant (Coming soon)

CBD’S APPROACH

At CBD we strive to help you succeed. Our instructors are highly trained and will share their knowledge with students, making them experienced and qualified specialists in their field of practice.

For Surgical Technology students, we provide the necessary training and skills needed to pass the National Certification Exam administered by the National Board of Surgical Technologists and Surgical Assistants (NBSTSA).

All students partake in mock testing in our computer lab as a preparation for their Licensure/Certification Examinations.

For Associate of Applied Science in Diagnostic Medical Sonography students, we provide the necessary training and skills needed to pass the Abdomen (AB) and Obstetrics and Gynecology (OB/GYN) exams as administered by the American Registry of Diagnostic Medical Sonographers (ARDMS).

Our instructional methods are carefully selected to lead all students, whether experienced or inexperienced in the medical field, to a successful completion of the program.

We also offer tutoring to our students for test-taking skills and medical terminology.
