Why Become a Surgical Technologist (ST)?

- The Bureau of Labor Statistics estimates a 30% increase in Surgical Technology jobs in the next decade
- ST is a cutting edge segment of the rapidly growing healthcare industry
- Work with doctors, nurses, and others as a critical piece of the surgical team
- Earn substantial income and be part of this in-demand profession
- Work in hospitals with operating rooms, delivery rooms, and emergency rooms, government agencies, and instrument and equipment sales

Surgical Technology Program Details at CBD College

- The Surgical Technology program at CBD College is designed to prepare students for a career in the healthcare field. Students will learn Anatomy & Physiology, Medical Terminology, Medical Law & Ethics, Patient Psychology, Anesthesia, Pharmacology, Sterilization, Surgical Instrumentation, Biomedical Science, Wound Closure, and Surgical Procedure via hands on training in our two state of the art mock surgery rooms. Clinical experience in our externship phase occurs in the last module of the program.
- The program is divided into six modules. Both day and evening programs are available to suit your lifestyle. In the final module, under the supervision of surgeons, nurses or other surgical personnel, students will assist in surgeries, preparing patients, covering them with surgical drapes, observing vital signs and performing other duties.

Why Study at CBD College

- Benefit from a non-profit environment where experienced professionals and volunteers in the ST field dedicate countless hours of research and development to the program
- CBD College has sophisticated, state of the art Surgical Technology equipment on which you will learn all of the techniques required for the field
- Lifetime job placement and career service assistance
- CBD College has relationships with a wide variety of surgical locations
- Learn from dedicated instructors with extensive, real-world experience in the fields in which they teach
- Personalized attention for each student
- Call to learn more about the CBD difference
